

# CALL FOR CONTRIBUTIONS

Submission Deadline: July 1, 2021

The University of Virginia, Virginia State University, and the Commonwealth Center for Advanced Logistics Systems (CCALS) will host the Eighth International Engineering Systems Symposium (CESUN 2021) October 10-12, 2021. The symposium will be held *in person* in Charlottesville, Virginia, although there is a virtual option for those who cannot travel.

Symposium theme:

## Innovations in Complex Sociotechnical Systems and International Collaborations

**CESUN 2021 seeks to bring together researchers from multiple domains and methodological backgrounds who share a common interest in tackling complex sociotechnical systems problems. We welcome submissions on any traditional CESUN topic, but particularly encourage work that speaks to a crosscutting topic, such as:**

- Complex Sociotechnical Systems
- Engineering Systems and Education
- Health Care Systems Engineering
- Humans in Engineering Systems
- International Innovation and Enterprise Systems
- Methodological Advances in Systems Engineering
- Resilient Infrastructure Systems and Smart Cities
- Trust and Security of Advanced Logistics Systems

### Submission Process

All contributions must be received by **Thursday July 1st, 2021**.

There are two options for submission:

- Extended Abstracts (3-4 pages, IEEE [format](#)) for oral presentations.
- Regular Abstracts (limit: 500 words) for poster presentations.

[Submit your Abstract](#)

Extended abstracts should include preliminary results. They will be peer reviewed by CESUN 2021 Technical Committee to be considered for oral presentations during the symposium. Excellent extended abstract submissions will be invited to submit to special issues in top-tier journals related to CESUN topics. Submissions not selected for oral presentation will still be considered for the poster presentation.

Regular abstracts will be reviewed for relevance and fit by the conference organizers and will be considered for slots in the poster sessions. There will be multiple dedicated opportunities for poster sessions throughout the symposium.
